

article 1230 applique/ wall light

SPOLETO è un'ampia serie per esterno con applique e pali luce per giardino di più misure. SPOLETO ha una linea decisamente tradizionale con rilievi decorativi con possibilità di decorare in più colori. Tuttavia è illuminato con LED integrati e dimmerabili o con la lampada GU10.

SPOLETO is an extensive series for outdoor use including bollards of two sizes and wall lights with different lengths. SPOLETO has a traditional look with terracotta relief work and several colours from which to choose. This however has not prevented TOSCOT from using integrated LED source. A GU10 option is also available.
