

EDGE scheda tecnica/ data sheet

article P231 palo/ bollard

EDGE è un'applicazione realizzata con i nostri materiali refrattari perfetti per le condizioni da esterno. La luce può essere posizionata secondo necessità, sia verso l'alto, verso il basso, a sinistra o a destra, creando un'illuminazione che mette in risalto l'architettura. È possibile scegliere tra lampade GX53 a LED integrate o retromontate.

EDGE is a wall light made with our refractory materials perfect for outdoor conditions. The light can be positioned as required, whether it be to point up, down, left or right. The architectural effect is enhanced by the material selected. There is a choice of LED onboard or retro fitted GX53 lamps.
